VII AUDAX INTERNAZIONALE VESPA CLUB VERMI A SQUADRE ... TO KEEP A TRADITION ...

Following the great interest aroused by the last edition, we are very happy to propose it more and more motivated by the *attention we want to draw to the women's world* by creating and dedicating to them an exclusive and unique event of its kind.

The doubts and questions that we posed in the last edition, organized after more than 60 years, in labeling it as "re-enactment" confirmed to me the objective impossibility of going back to those times: we must therefore propose it again "*remembering*" and at the same time "*updating*" this beautiful and historic event.

This is why we can't recreate at 100% the atmosphere of those past times and also, we can't assume the right to pass it of for that.

This VII edition of the " **INTERNATIONAL AUDAX FEMALE VESPA DRIVERS TEAM** " is organized by V.C. Milano in a **current and modern key** with my personal intent to thank all our Vespa lovers, companions, wives, who have always worked to help us manage all Vespa events scheduled in recent years.

Dear Vespa fans of all ages, **NOW IT'S UP TO US TO WORK FOR THEM.**

Until now I want to thank who inspires me and who will help me during this challenge, first of all the Executive and the Members of the V.C. Milano, of the V.C. Bulciago, of the V.C. Ticino and V.C. Val d'Intelvi who will take part with me in this adventure.

The President of V.C. Milano

Carlo Bozzetti
